Creative MILLWORK

Volume 3: Happy Thanksgiving **11/1/08**

Interior Doors:

How about distressed cherry?

While looking for that perfect interior door to compliment a room, stop and take a look at the distressed cherry door. The qualities of cherry wood make it a great species for a door. Cherry is a medium-density wood that has excellent durability and superb finishing qualities. When sanded and stained, it produces an excellent smooth finish. Cherry will vary in color from rich red to reddish brown and will darken with age, enhancing its character. Stop by our showroom to see our display.

Cherry Tree Facts:

- *It will grow 60-80ft. tall*
- *It lives up to 200 years!*
- *American colonists used it for home furnishings.*

Now is the time to replace your windows and Marvin Windows and Doors is the perfect fit.

Do you have drafty windows? Old, low quality, and poorly-fit windows are costly. Marvin Windows are highly energy efficient. All of Marvin's products have options that meet the ENERGY STAR® requirements.

Are your windows inoperable or is the hardware outdated? If your windows will not lock or unlock or if your handles are rusty or unattractive, you may want to consider replacement. All of Marvins hardware options are produced to fit and operate flawlessly. With multi-point locking systems and folding handles, you just cannot beat the quality and look of Marvin Windows.

Not only will Marvin Windows create a more attractive living space, they will also put money in your pocket. They are virtually maintenance free, eliminating the need to paint your windows. Marvin's exclusive extruded aluminum clad outperforms others by years or even decades. They come in a large range of colors, casings, and options, so Marvin is able to replicate any wood window look with a clad exterior.

Please call us or visit our website for more information.

Holiday Hours
